**Subject: Request Regarding Room Allotment in VHR – Disagreement with current allocation**

Respected Sir,

We, the final year students of various branches currently residing on the 2nd Floor of APJ Abdul Kalam Hostel (APJHR), would like to bring to your kind attention our concerns regarding the current room allotment process for VHR.

Throughout our stay in APJHR, we have developed strong bonds and a cooperative living environment. As we enter our final year, we wish to continue this sense of unity by staying together on the same floor in VHR.

It is our humble request that an entire floor in VHR be allotted to us so all current 2nd Floor residents of APJHR can be accommodated together.

Additionally, we would like to highlight that many of us have taken private WiFi connections in groups during our stay. To maintain both technical continuity and cost efficiency, we request that rooms be allotted such that members sharing a Wi-Fi connection are placed nearby or on the same corridor/floor. This arrangement will reduce inconvenience and avoid unnecessary changes to our network setups.

We fully understand that hostel management faces various constraints, but we hope our collective request as final-year students will be considered sympathetically. We assure you of our continued discipline, cooperation, and respect for hostel regulations.

Thanking you in anticipation.

Yours sincerely,

## **All Residents of 2nd Floor, APJHR**
